

# Psych 2010

Opportunities for study in psychology and psychiatry

[www.med.monash.edu.au/spppm/study-opp.html](http://www.med.monash.edu.au/spppm/study-opp.html)

Come along to our information evening to learn more about the prospect of furthering your career through psychology and psychiatry studies at Monash University.

Opportunities exist in our psychology, behavioural neuroscience, biomedical science and medical science honours programs. At postgraduate level, students can choose from research degrees or coursework programs in the fields of clinical psychology, clinical neuropsychology, organisational psychology, forensic behavioural sciences, health psychology and more.
