

AUTISM in the PRESCHOOL YEARS

This series of 3 consecutive sessions is for staff working in early childhood services and parents of preschoolers with autism.

We are inviting parents and professionals to come together to work collaboratively on strategies.

PRESENTER

Faye Guyatt
Occupational Therapist
Goulburn Valley Community Health

These sessions will include information on:

- *Core features and early signs of autism
- *Increasing communication using visual supports
- *Understanding and managing difficult behaviour
- *Increasing play skills and social interaction
- *Practical strategies for including children in kindergarten and childcare.
